

Damian Sorbian

I am a hybrid designer with an engineering background. I combine branding with analytical thinking and UX/UI expertise, creating strong brand identities, especially in digital environments. I support traditional design principles with new technologies, including generative graphics.

Experience

September 2022 - now

Freelance

- developing a brandbook and social media materials for the sports brand Thorn Fit
- designing comprehensive branding for the eco-friendly clothing brand Yourflow
- creating visual identity for the medical association IFMSA
- designing award-winning posters, album covers, and promotional materials

December 2025 - February 2026

Graphic Designer | Valkea Media

- creating digital assets for social media channels for major brands (e.g., SM Ryki, Łódź Manufaktura)
- preparing visual materials for large-format printing (posters and billboards)
- optimizing workflows through the use of generative AI tools

March 2024 - December 2024

UI Designer | Readiy

- designing mobile interfaces and high-fidelity wireframes
- collaborating with frontend developers (design hand-off)
- implementing and developing the app's design system
- co-facilitating UX workshops with clients to map needs

Education

November 2023 - July 2025

New Media Arts | PJATK master studies

Developing skills at the intersection of branding, UX/UI, and typography. Extensive visual explorations, supplemented with animation and 3D. Research on gamification in mobile apps.

November 2022 - June 2023

Graphic Design | PJATK postgraduate studies

Building a professional graphic design skill set, expanded with print and UI design principles.

November 2018 - June 2022

Transport | Warsaw University of Technology bachelor studies
